 Lanka Expat Services

Dear Expat,

Lanka Expat digital electronic magazine first launched in March 2008 was an immense success as we saw the interest, support and encouragement given to our team from hundreds of Lankans across the globe and from Sri Lanka sending their congratulatory letters. We salute and thank you for the responses as we opened a new dimension to talk about what our nation and its people can do and to depict the positive side that no other country can boast about. The focus of our magazine is based on showcasing the hidden, silent and the best facts of our land, people, history and the opportunities it gives to all of us, so to mitigate all the negativity that is published.

The LKX team believes that all of our readers would look at our country in a positive manner and help build this nation in what ever way they could so that we are not just Lankans but are citizens of a proud and smart nation (for our exiles etc). This is where the expat community can make a big contribution by way of letting the world know what Sri Lanka can offer.

LKX now offers four E- magazines to the Lankans and expat community under the theme "Four Seasons" (spring, summer, autumn and winter), the chosen theme for this summer's issue is the "Kandy Esala Perahera", which will be held from 7th August - 17th August 2008.

We hope you will enjoy reading the free digital e-magazine put out especially for you.

Join hands with us to build a better country and say "Yes - We can and we will". After all this is your home!

[Volume 1 Issue 4- Winter 2008](#)

Living & working
around the world

Dear Friends,

Best wishes for 2009 and welcome to the "winter issue" of the Lanka Expats Four Seasons digital e-magazine.

What is in store for all of us in 2009 is the big question in all our minds?

A global recession is looming around all of us irrespective of where we live, work and study. One may think that all is doom, but why not look at the brighter side?

America has voted for change, crude oil has come down, interest rates have come

down, and for those in Sri Lanka we may achieve peace and stability as we say good bye to terrorism.

So it seems that the light at the end of the tunnel is definitely there and it will be only our mind set, courage and attitude that will help us to overcome the tough times and ride towards a better future.

It seems that in 2009 Sri Lanka will hopefully come out of its most difficult three decade old problem which has been holding all of us in our recent history. Facing terrorism and achieving sustainable peace among all communities by working

towards economic recovery, harmony and stability among its people will give a new lease of life for this beautiful country. We are confident that all expats will focus towards rebuilding their motherland to bring the glory it deserves "the paradise on earth - or had like to other".

Lanka Expats Services invites you to submit articles for 2009 from where ever you live and hope you will enjoy reading the winter issue of the digital e-mag. May it be a profitable, rich time and most importantly a peaceful year ahead!
